PROFESSIONAL EXPERIENCE

PRISM (Parent Company of OYO), Gurugram November 2025 - Present

Product Manager III | OYO US consumer platform, call centre, and G6 platform

Travel-tech platform for hotels, homes, and extended-stay accommodations through a technology-led hospitality ecosystem.

AI and Data Products

- Built and deployed a natural-language-to-SQL analytics agent with **85% SQL accuracy** against gold-standard business queries; a two-agent architecture generates SQL, executes queries, and visualizes outputs with golden-dataset evaluation.
- Enabled self-serve product and operations queries through natural language, reducing analyst dependency.
- Building a GM operations agent for daily property operations; it is in observation, learning, and insight phases, used by Finance, Ground Operations, Vendor, Compliance, and Revenue teams, with efficiency and accuracy evaluation criteria.
- Owned product-system deployment and release validation; automated PM workflows for research, benchmarks, Teams reporting, and PRDs.

Conversion and Revenue Growth

- Built a data-backed dynamic fee module for OYO and G6 brands, increasing cost margin by up to **\$2M annually**.
- Led FTC pricing-transparency implementation while recovering conversion through a **28% reduction** in prepaid page views, **10% improvement** in Google HAC price accuracy, and **10% uplift** in HDP-to-booking success conversion.

Splashlearn - Studypad India Pvt. Ltd., Gurugram May 2024 - November 2025

Product Manager | Subscriber growth and retention, Android app

EdTech platform for interactive math and reading programs for elementary students.

Subscriber Growth and Retention

- Launched the Android app to **1,000 monthly subscribers** within 6 months, driving **\$5K in recurring revenue** growth.
- Used engagement analytics to raise Play Store rating from **2.3 to 4.0**, Day-0 engagement by **25%**, and playable starts by **30%**.
- Diagnosed an iPhone vs. iPad Day-0 gap and redesigned the dashboard, improving early engagement by **10%**.
- Launched web-to-app migration, converting **70%** of mWeb users and lifting trial-to-paid by **15%**, adding **800 incremental subscribers** monthly.
- Developed a first-time game-download algorithm, cutting Day-1 cancellations **15%** and raising trial-to-paid **8%**; added **800 subscribers** at **\$55 LTV**.

Mamaearth (Honasa Consumer Limited), Gurugram March 2021 - May 2024

Product Manager | April 2023 - May 2024 | Aqualogica, referral system, and house of brands

Aqualogica D2C Brand: skincare brand focused on hydration through fruits and actives.

Aqualogica Growth and Website Analytics

- Led the **GTM launch of Aqualogica's D2C website**, owning strategy, roadmap, UX, analytics, QA, copy, and operations.
- Spearheaded core product initiatives that supported a **175 Cr** annual revenue run rate.
- Used homepage and search-funnel analysis to improve homepage conversion by **15%** and search conversion by **17%**.

Referral and Acquisition Analytics

- Owned the referral system across web, Android/iOS apps, and Yotobox to reduce new-user CPC.
- Increased daily referral signups to **8%** of organic daily acquisition by improving visibility for targeted cohorts.
- Achieved **40%** referral-user conversion versus **20%** for signup users through drip-funnel analysis.
- Reduced first-order discounts for Yotobox-acquired users by **25%** across Honasa brands.

Associate Product Manager | September 2021 - March 2023

- Benchmarked Aqualogica as Honasa's fastest **0-to-100 Cr** annual-run-rate brand.
- Implemented a referral system on Mamaearth website and app to reduce CPC for new users.
- Rolled out the BBlunt devices site on Shopify (**Rs. 2,500+ AOV**) and the Aqualogica platform in under **50 days**.
- Partnered with engineering on scalable API contracts and event architecture supporting **1M transactions per day**.

Product Management Intern | March 2021 - September 2021

- Automated fraud detection and cancellation, eliminating manual review effort.
- Streamlined post-purchase flow across Magento, Unicommerce, and Shiprocket, reducing non-serviceable orders to **0**.

PERSONAL BUILDS

- Coach:** Built a controlled-beta, cross-platform fitness companion for web, iOS, and Android through an AI-native build workflow; defined evaluation criteria for personalized program-allocation accuracy.
- Profile operations workflow:** Designed a human-gated agentic AI workflow for role discovery, link validation, requirement normalization, profile evaluation, and versioned score history; no capture, approval, or publication occurs without human approval.

EDUCATION

The LNM Institute of Information Technology August 2017 - May 2021

Bachelor of Engineering in Computer Science
