SUMMARY

Product Manager with **5+ years** in consumer growth, D2C ecommerce, and monetization, with a computer science background that lets me ship AI systems and define their evaluation criteria myself. Currently building text-to-SQL and agentic operations products at **OYO**; previously ran subscriber growth at Splashlearn and launched Honasa's fastest-scaling D2C brand.

SKILLS

AI & ML: LLM evaluation and benchmarking, RAG, agentic workflows, prompt design, text-to-SQL, golden-dataset evaluation

Data & Analytics: SQL, Python, product and funnel analytics, experimentation, data pipelines

Product: Roadmapping, GTM, API and event architecture, release ownership, PRDs

Analytics & BI Tools: GA4, Mixpanel, CleverTap, MoEngage, Looker, Power BI, Metabase

Build & Design Tools: Figma, JIRA, Cursor, Claude, Codex, Lovable, Xcode, Android Studio

PROFESSIONAL EXPERIENCE

PRISM (Parent of OYO)

November 2025 – Present

Product Manager III | US consumer platform, call centre, and G6 platform

OYO and Motel 6 US portfolio: ~10K daily bookings at ~\$80 average daily rate.

AI and Data Products

- Shipped a natural-language-to-SQL analytics agent at **85% accuracy** against a gold-standard business query set; a two-agent architecture generates SQL, executes queries, and visualizes outputs, validated on a golden dataset.
- Rolled out across **6 teams**, moving day-to-day analysis ownership from analysts to product and business owners.
- Building a General Manager operations agent for daily property operations, piloting across **40 UK and Europe properties** with five functions — Finance, Ground Operations, Vendor, Compliance, and Revenue — against efficiency and accuracy criteria I defined.
- Owned deployment and release validation for both systems; automated internal PM workflows for research, benchmarking, Teams reporting, and PRDs.

Conversion and Revenue Growth

- Built a data-backed dynamic fee module across OYO and G6 brands, adding **\$2M** in annual margin.
- Led FTC pricing-transparency compliance without losing conversion: simplified the prepaid funnel to cut page views **28%**, improved Google HAC price accuracy **10%**, and lifted HDP-to-booking conversion **10%**.

Splashlearn – Studypad India Pvt. Ltd.

May 2024 – November 2025

Product Manager | Subscriber growth and retention, Android app

- Launched the Android app and grew it to **1,000 monthly subscribers** within 6 months.
- Diagnosed engagement drop-off and shipped fixes that raised the Play Store rating from **2.3 to 4.0**, Day-0 engagement **25%**, and playable starts **30%**.
- Traced a Day-0 gap between iPhone and iPad users to dashboard layout; redesigned it for **10%** higher early engagement.
- Launched web-to-app migration, converting **70%** of mWeb users and lifting trial-to-paid **15%**, adding **800 incremental subscribers** monthly.
- Built a first-time game-download algorithm that cut Day-1 cancellations **15%** and raised trial-to-paid **8%**, at **\$55 LTV** per subscriber.

Mamaearth (Honasa Consumer Limited)

March 2021 – May 2024

Product Manager | March 2023 – May 2024 | Aqualogica, referral system, and house of brands

- Sole product owner of aqualogica.in**, the D2C website behind Aqualogica's **Rs. 175 Cr (~\$21M)** annual revenue run rate; led GTM launch, strategy, roadmap, UX, analytics, QA, copy, and operations.
- Rebuilt the homepage and search funnels off conversion analysis, improving homepage conversion **15%** and search conversion **17%**.
- Owned the referral system across web, Android, iOS, and Yotobox; its MamaCash wallet-credit incentive drove **40%** conversion for referral signups versus **20%** for organic, and cohort-targeted visibility grew daily referral signups to **8%** of organic daily acquisition.
- Reduced first-order discounts for Yotobox-acquired users **25%** across Honasa brands.

Associate Product Manager | September 2021 – March 2023

- Scaled Aqualogica to Honasa's fastest **0-to-100 Cr** annual run rate.
- Shipped the referral system on the Mamaearth website and app, cutting acquisition cost per new order from **Rs. 620 to Rs. 580**.
- Launched the BBlunt devices site on Shopify (**Rs. 2,500+ AOV**) and the Aqualogica platform in under **50 days**.
- Partnered with engineering on scalable API contracts and event architecture supporting **1M transactions per day**.

Product Management Intern | March 2021 – September 2021

- Automated fraud detection and order cancellation, eliminating manual review effort.
- Streamlined the post-purchase flow across Magento, Unicommerce, and Shiprocket, cutting non-serviceable orders to near-zero.

PERSONAL BUILDS

- Coach (coachfitness.co.in)**: cross-platform fitness companion for web, iOS, and Android, built solo through an AI-native workflow; defined the evaluation criteria for personalized program-allocation accuracy. Currently in invite-only beta with internal users.

EDUCATION

The LNM Institute of Information Technology

August 2017 – May 2021

Bachelor of Engineering in Computer Science
